

# BUILDING BRIDGES 2006

"Share Our Similarities, Celebrate Our Differences"

The 5<sup>th</sup> Annual Conference of the Institute for 21st Century Relationships – October 13-15 – Seattle, WA

*Building Bridges* is a unique educational, recreational, networking event that expressly seeks to bring together the alternative lifestyle communities to share, learn, connect and mutually support each other. Regardless of which (or how many!) alternative lifestyle communities you belong to, you'll find kindred spirits at *Building Bridges*!

## **Building Bridges is for YOU if you're:**

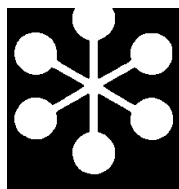

- n Polyamorous
- n A swinger/lifestyler
- n Into BDSM, kink or power exchange relationships
- n In a same-sex relationship
- n A counselor or therapist with clients from any of these groups
- n A researcher interested in nontraditional relationship forms

// This Conference was fantastic! I would definitely come again! n This was our first time, and I can guarantee it will not be our last! n [I] wanted to let you know that, for our first BB conference, we loved it...The presenters were excellent and the people we met were very friendly toward us. We thought the food was delicious, from the welcome reception to the breakfast and lunch. n Thank you soooo much for creating such a full weekend of thought-provoking, supportive, inspiring experiences //

**Comments from previous attendees**

## **This is an Event You Won't Want to Miss**

The brain is indisputably the largest and most important sex organ. *Building Bridges* has always been devoted to helping you develop and exercise that sex organ in meaningful and enduring ways. Our content reaches across the various alternative sexual and relationship communities and helps attendees better conduct their own relationships and learn first-hand about other forms of nontraditional relationships that might also work for them. *Building Bridges* was recognized in 2004 by the Society for Human Sexuality with a national award, calling us, "superb both as an educational event and as a networking event."
